

### Communication & Literacy

#### In school we are:

- Listening to a sensory story Superworm by Julia Donaldson.
- Learning how to use various switches to play with toys and computer games which develops understanding of instructional language and encourages expressive communication.

#### At home you could:

- A copy of a simplified version of the story will be sent home asap for you to enjoy at home.
- You can find a full version copy online <https://fliptm15.com/rhexy/pejp/basic>
- Enjoy the movie on BBC iPlayer

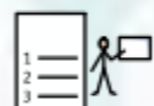

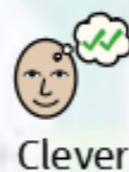

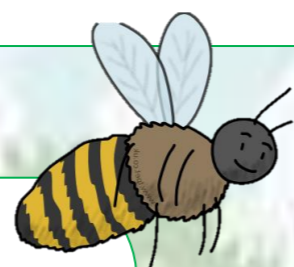

### Personal, Social, and Emotional Development (PSED)

#### In school we are:

- Developing our body awareness through a plant themed foot massage.
- Making our own Superworm that is the same height as us.
- Looking at photos of us as babies/ toddlers and our reflections to observe how we've changed.

#### At home you could:

- Massage - Talk about areas of the body being massage to bring awareness to them.
- Look at photos and videos of your child when they were younger and talk about what they looked like and things that they did.

the

Garden

### Maths

#### In school we are:

- Catching "worms" (spaghetti). (number)
- Visiting a "beehive" and counting bees. (number)
- Exploring hexagons (shape)

#### At home you could:

- Sing counting songs during bath times.
- Show your child how to count various objects and toys.
- Point out shapes that you encounter in your child's everyday environment and nature.

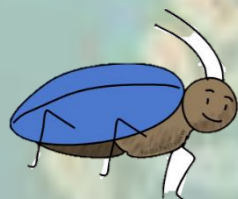

### Understanding the World

#### In school we are:

- Exploring our Air Bee 'n' Bee to see what creepy crawlies have decided to pay a visit.
- Playing in our mud kitchen.
- Picking herbs from our herb garden and mixing them into playdough.

#### At home you could:

- What can your child collect from their garden or local area to look at, touch and smell?
- Can you find any insects in your garden or local environment?

### Expressive Arts & Design

#### In school we are:

- Making a beehive fit for a Queen bee.
- Exploring symmetry by making butterfly wings.
- Using silly string to create our own webs.

#### At home you could:

- Collect natural materials from the garden or your local area and make a nature collage.
